

Dear Parent or Caregiver,

My Books Summer is a program designed to help your child enjoy reading books over the summer break. In addition to the books, your child gets access to a FREE digital magazine with interactive activities, fun games, and much more. Here's how to access these digital resources that will motivate your child to read all summer long:

1. View the chart below. Go to the website associated with your child's grade level.
2. On the website, click on the "Sign In" icon. Then click on the student icon.
3. Enter the classroom password.

Here are some great tips to get your child excited about reading and learning this summer:

- Invite your child to point out and read familiar words in a book you are sharing.
- Read and compare two books by the same author or on the same subject.
- Ask questions after reading: Where and when does the story take place?
Who are the main characters? What do they do? Why and how do they do it?
- As you read aloud together, pause to look up any unfamiliar words.
- Speak with your school or local librarian about recommended books and upcoming book events that your child might enjoy.
